Chris,

I listened to your voice mail. I'm still not sure we can get the wells placed in a reasonable time but I agree that REI should not waste more time on this.

Subject: Tower Standard - Monitoring Well Installation for USGS Investigation

Hi Dave:

Based on a conversation I just had with Kristen Hanson from Lac du Flambeau TNR, you can

stop work on scheduling the monitoring well installations for the USGS study. Kristen said that they have some wiggle room in their schedule with USGS, and she believes that that extra time will allow EPA to contract for the drilling and well installation.

Please let me know if you have any questions.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
